**Subject:** Jan 25 State Air Board Hearing on Mirant  
Hello,

My name is Thomas Hickok. I reside at [801 N. Pitt St., # 1703, Alexandria, VA 22314](#), and I can be reached at [703-587-9663](#) if you wish to speak further...

I am unable to attend the hearing in person, but would like the State Air Board to see my comments. They follow:

I support the analysis of the City of Alexandria in this matter. The City has done an excellent job, dating back several years, to protect the health interests of the public. The most convincing part of their analysis, to me, is the lack of protection against those very small particles that are particularly insidious to the lungs, PM2.5

I urge the Board to put the health interests of the public first. Turn down the [Mirant](#) request.

Thank you.

Best,

Tom Hickok
